Just come together for sport & fashion

INTERNATIONAL FORUM
 FOR TECHNICAL TEXTILES

The forum is organized by **Piemonte Agency** within the **Textile Project** promoted by **Regione Piemonte** and financed by ERDF - European Regional Development Fund.

The event is realized in collaboration with *Consorzio Promozione Filati, Camera di Commercio Biella e Vercelli, Unione Industriale Biellese, PO.IN.TEX.* (Textile Innovation Cluster), *Politecnico di Torino* and *Texclubtec.*

Piemonte, the northwestern Italian region home to remarkable companies and to the Biella textile district, is proud to host in Torino the **first edition of IFTT**, a new international forum for technical textiles as applied to sportswear, fashion and lifestyle.

IFTT will be unlike any other event of its kind. It will provide a **high level platform** for the exchange of views on business growth challenges and opportunities.

It will gather providers and experts from **worldwide famous brands** and **Italy's most creative yarn and knitwear producers and finishers**, ready to listen and join forces in the true spirit of **collaborative research and product development.**

Interactive panel discussions between international brands and Italian companies will put a spotlight on the latest perspectives of the technical textile industry and match demand and supply.

Creativity and innovation are the keywords of the whole forum.

Piemonte-Italy is the place to be for the **future of technical textiles.**

Join us at IFTT
